In 2009, 13 photographers traveled the 2,000 miles between the U.S.-Mexico border to document the wildlife, landscapes and human communities of the borderlands. Photos from this project will be on exhibit at UC Riverside’s Orbach Science Library from February 23, 2010 to March 26, 2010.

Faculty, staff, students, and the public are invited to attend the exhibit’s opening ceremony and reception on February 23.

Please join us also on February 22, the day before the exhibit’s opening, for a slide show and panel discussion on the border wall and its impact on human immigration and borderland wildlife and ecosystems.
